THE **GP1 LS** IS GAERNE'S ULTIMATE RACING BOOT. DEVELOPED IN COLLABORATION WITH OUR PROFESSIONAL RIDERS AT OUR R&D CENTER, WITH THE INNOVATIVE FLOATING SYSTEM, IT ALLOWS FOR NATURAL FOOT MOVEMENT WHILE PREVENTING ANKLE TWISTING. TWO RUBBER INSERTS ON THE INNER CALF AND HEEL PROVIDE ENHANCED GRIP AND PROTECT THE LEG FROM HEAT. THE ADJUSTABLE AND REPLACEABLE BOA® LIZ REEL ENSURES A CUSTOM FIT AROUND THE CALF. FURTHERMORE, THE HIGH-WEAR-RESISTANT MAGNESIUM TOE SLIDER AND THE OIL-RESISTANT RUBBER SOLE, DESIGNED TO PROVIDE EXCELLENT GRIP, COMPLETE THIS PREMIUM BOOT. PROUDLY MADE IN ITALY, THE GP1 LS EMBODIES GAERNE'S UNWAVERING COMMITMENT TO QUALITY AND EXCELLENCE IN RACING GEAR.

GP1 LS

Made for racing

GAERNE FLOATING SYSTEM:

Made of carbon composite, allows the foot to move without compromising flexibility and preventing hyper extension or compression.

SHOCK-ABSORBING HEEL CUP:

Non-deformable polyurethane heel cup is protected by or replaceable low-friction magnesium slider. Anti-shock heel features an internal comfort-enhancing decompression zone, located between the inside and sole.

GRIP GUARD:

Two rubber inserts (inner calf and heel) provide additional grip and protect the leg from engine/exhaust heat.

SLIDER:

High-wear-resistant magnesium toe slider allows for totally free foot movement. Attachment points are well reinforced to avoid areas that normally suffer from abrasion.

ADJUSTABLE CALF CLOSURE SYSTEM:

Adjustable and replaceable BOA® LIZ reel enables a custom-fit around the calf area.

SOLE:

Variable density, oil and wear-resistant, rubber sole features a unique design that provides excellent grip.
